LIVE AUCTION ITEMS

MENDING THE NATION

Donated by American Plant Food

I had a vision of a family gathered around an American flag. Not just any flag, but that of a fallen serviceman, a father, a son, a daughter; the kind of flag that would be laid over a casket with great reverence. But upon examining the flag, one can see that it is in horrible condition. Its colors are faded, the edges are torn and there

are many holes. It has been trampled and has not been treated with the honor and respect, which it deserves.

Today, our nation is in disarray. Our Constitution has been trampled, our financial solvency is in question, our military is compromised, and the decline of the moral fabric of our society is in question. Our government has lost the trust of the people. Our courts do not uphold the Constitution and the American people are afraid for the future of their children. What will it take to mend the nation?

I think that the American spirit is alive and if we muster enough courage and commitment it can be done. The last time I saw such courage was after 9/11 when the country came together for a common good. If we are going to rebuild America I believe it will take FIVE VALUES. Courage, Family, Hope, Faith, and Love; each value is required to make it work—remove one and the whole system fails. In this painting, each member of the family represents a different value. Together we can move forward in "Mending the Nation."

ONE CASE (12 BOTTLES) OF ALPHA OMEGA PROPRIETARY RED 2016

Donated by Donnie Taylor

This Cabernet-dominant wine was designed to be a Bordeaux blend with pure Napa Valley pedigree. Utilizing vineyards such as Sunshine Valley Vineyard, Alpha Omega created a dense wine that has more diversity in its profile. The 2016 Proprietary Red is the intellectual offering of Alpha Omega's current releases.

Winemaker Notes: "2016 was a near-perfect growing season thanks to ideal weather conditions, giving Napa Valley another winner in a series of historic vintages. Spring budbreak came early due to dry and relatively warm soils from a drought winter. There was a slight carry-over effect of that advanced timing in producing a low flower count and lighter fruit set (fewer potential grapes and smaller clusters at maturity). However, the thinner grape population was actually beneficial as it focused the vines' flavor energy on fewer bunches. Minimal heat spells and

consistently cool nights across the summer months allowed the clusters to ripen slowly and evenly while protecting their vitally important natural acidity."
